Tweet

The 757 is acknowledged throughout the world as the leader in short- to medium-range operations. It is hugely popular with operators, crews and passengers and now a professional quality re-creation of this great airliner can be flown in Flight Simulator X or 2004.

This spectacular 757 expansion has been developed by the experts at Captain Sim and is a technical masterpiece. It comes in -200, -300 and freighter variants with an impressive selection of different airline liveries and different engine variants. If you want the finest 757 for your simulated fleet then look no further - this is the Captain's choice!

Click to enlarge

- 757 Captain features literally hundreds of animations including control surfaces, wheels, engines and doors plus unique interior features such as internal doors, windows and even TV screens with animated pictures!
- Choose the -200, -300 or Freighter variants with Rolls Royce or P&W engines and a wide selection of different liveries.
- High quality flight models and avionics include a custom designed Flight Management System, weather radar and much more.
- Features the Captain Sim trademark Aircraft Configuration Editor that lets you set up the 757 exactly as you want.

All the information about the FSX version of 757 Captain is at the top of this section (-200 model, -300 model and Freighter) - for details of the FS2004 version, please scroll down this page.

**** FSX VERSION ****

757-200 MODEL (FSX)

Features Overview

- 757-200 Model with Rolls-Royce RB211 engines
- 757-200 Model with Pratt & Whitney PW2040 engines
- 39 liveries
- 97 Custom Model Animations
- Exterior Model Systems Programming
- Exterior Model Animation Control Panel
- Stewardess Model (different airline uniforms)
- Highly detailed VC of the flight deck, passenger cabin, galley & lavatory
- High- resolution textures and 273 Custom 3D Animations in the VC
- VC Views Control 2D Panel
- 40 2D systems panels
- Systems Programming
- Repaint Kit
- Exclusive Effects
- Call any of the forty 2D panels by clicking the OVERHEAD ICON PANEL or the panels on the Overhead, Aisle Stand or Glareshield in the VC
- High-resolution readable sheets on the Pilot's Window Clipboards. Place nav charts, notes or remove the sheets
- High-resolution poster on the flight deck back wall. Place your favourite poster, calendar (or remove the poster).

Liveries (39) & engine versions

(RR = Rolls-Royce RB211, PW = Pratt & Whitney PW2040)

- Air Berlin (3 x liveries)
- Air Canada (2006 livery)
- Air China - RR
- Air Finland - RR
- Air Holland - RR
- Air Transat (2 x 757-28A liveries circa 1997 and 2007)
- Astraus Airlines (757-200 winglets)
- British Airways - RR
- Britannia - RR
- Delta - PW
- Dutch Bird - PW
- Excel
- First Choice - RR

ADDITIONAL FEATURES (ALL FSX AIRCRAFT)

ACE (Aircraft Configuration Editor) utility

This provides the following features:

- Add new '757 Captain' Sim liveries to MS FS2004 and FSX
- Preview any existing (installed) '757 Captain' Sim livery
- Delete any existing '757 Captain' Sim livery from MS FS2004 and FSX
- Edit AIRCRAFT VARIATION text
- Edit DESCRIPTION text
- Set the models appearance in MS FS2004 WITH or WITHOUT Virtual Cockpit
- Number of PREFLIGHT settings features
- Number of special features (updates, troubleshooting)
- The ACE works with all products of the '757 Captain' family - '757-200 Captain', '757 Freighter Captain' and '757-300 Captain'

Custom Sound Set (RR + PW)

This can work with any FS2004 and FSX 757 aircraft.

The 757 Series aircraft sound set package includes the following:

- 757 Rolls-Royce Engines Soundset
- 757 Pratt & Whitney Engines Sound set

Â

***** FS2004 VERSION *****

757-200 MODELÂ (FS2004)

Features Overview

- 21 high-resolution liveries
- 97 custom Animations
- Animation Control Panel
- Stewardess model (various airline uniforms)
- Dynamic Wing Flex
- Wing Flaps Vortices
- Blended Winglets
- Highly detailed VC including Flight Deck, Passenger Cabin, Galley and lavatory
- 273 custom 3D Animations
- High resolution Textures

Systems Overview

- Extensive Systems Programming
- Flight Management System (FMS)
- 2 high-resolution full-screen 2D Panels
- 6 high resolution full-screen 2D Interior Views
- 40+ additional 2D Panels
- 2 Passenger Wing Views

Other features

- ACE (Aircraft Configuration Editor)
- Authentic Sound Set (PW and RR engines)
- Realistic Flight Model
- Exclusive visual Effects
- Repaint Kit
- Extensive Manuals in 5 parts (hundreds of pages in total)
- High resolution readable sheets on the Pilot's Window Clipboards. Place some nav charts, notes or remove the sheets
- High resolution poster on the flight deck back wall. Place your favorite poster, calendar or remove the poster.

Free Bonus Features

- Collins WXR-2100 Weather Radar
- Aeronautical Data including Terminal Procedures

ADDITIONAL FEATURES (ALL FS2004 AIRCRAFT)

ACE (Aircraft Configuration Editor) utility

The ACE utility works with all variations of 757 Captain: -200, -300, Freighter) and provides the following features:

- Add new '757 Captain' Sim liveries to MS FS
- Preview any existing (installed) '757 Captain' Sim livery
- Delete any existing '757 Captain' Sim livery from MS FS
- Edit AIRCRAFT VARIATION text
- Edit DESCRIPTION text
- Manage selection of up model variations
- Number of PREFLIGHT settings features
- Number of special features (updates, troubleshooting).
- The ACE works with all aircraft of the '757 Captain' family: 757-200, 757-300 & 757 Freighter

Authentic Sound Set

- Boeing 757 Rolls-Royce Engines Soundset
- Boeing 757 Pratt & Whitney Engines Soundset

System Requirements

- Flight Simulator FSX (SP2) or FS2004
- 3.0GHz PC
- 1.0Gb RAM
- 256Mb 3D graphics card
- Windows XP/Vista
- 925Mb hard drive space for FSX installations, 3.4Gb for FS2004
- DVD-ROM drive
